## Quality Policy:

Quality is one of the major aspects we care about in all our projects, all Materials we use is either UL/FM/LPCB/VDS and/or equally approved and purchased from OEM and/or authorized distributors. We never compromise on quality in any stage of service deliverance. We have a dedicated team to monitor every process with an eye of strict quality vigilance. Every code of installation is strictly followed and implemented.

We make sure our team are always updated and equipped with the most advanced techniques and equipment to abide by this adherence.

Our quality control methodology ensures that quality remains one of the more concerns throughout all the activities from the procurement of materials till the final delivery of our services.

Technical support & training

Our Maintenance Engineers will receive any emergency calls 24/7, we provide your staff with the basic required trainings on how to deal with any emergency that might arise, to fix the problem temporary until our emergency team reach your site and restore the system to normal operating condition.

#### **Projects Exposure**

As previously mentioned we handle all Kind of Fire Systems related to construction field right for the point of approved design to the completion of project and getting the permits and approvals for the facility to start running and all the way through periodic maintenance as Annual maintenance contract to make sure your premises or facility is running absolutely safe and smoothly for occupants and workers Our Company have a huge experience with executing and maintaining different kind of facilities, We have completed installations of some Projects, and we currently holding annual maintenance contract of many Buildings . We would like to mention some examples of our finished and/or On going projects to give you an idea of we are capable of.

## CAREER OBJECTIVE

Seeking a challenging career where acquired knowledge can be utilized to reach the set goals and targets, with the ability to improve personal skills and knowledge to enhance quality and efficiency of the organization I work with.

## **Summary of Experience:**

I have 16 years of experience in the Following Fields

- Integrated Fire & Gas Systems .
- Fire Detection System .
- Video Fire Detection System.
- Fire Fighting Systems Such as " Sprinkler System , FM200 System, Foam System, Fire Extinguishers ".
- i was involved in various types of projects and have gained an extensive experience in:
  - · Oil & Gas .
  - · Petroleum Plants .
  - Industrial Plants .
  - Commercial Malls Commercial Compound Buildings.
  - Residential Buildings and Compound.
  - International Supplier & Manufacturer list

## A- Integrated Fire & Gas System
